

RIPARIAN REFLECTIONS

While out on a riparian (riverside) exploration near your home or school, you will be working on observing common riparian plant species and recording your findings. Once your observations are complete, use field guides to identify your plants and insects.

Draw or describe where you are:

Draw three different plants that you see:

RIPARIAN REFLECTIONS

Draw three different insects that you see:

--	--	--

Draw or describe something else that catches your eye e.g. birds, animal tracks, signs of humans:

How does being outside make you feel?
